🎆 Happy Diwali 2025! 🎆

This Diwali brings not just lights, but new highs in the market

✨ Market Highlights:

🌟 Nifty has scaled a new 52-week high, powered by strong performance from the Banking & Financial sector — though still ~400-500 points shy of its all-time peak.

🏦 Bank Nifty is already at a lifetime high, leading the charge.

📈 Star Performers:

Apollo Hospitals 🏥 – hitting lifetime highs

Maruti Suzuki 🚗 – boosted by robust auto sales post-GST reforms

Nifty 50 continues to show strength with solid earnings momentum

---

Commodities Corner:

The silver rally seems overextended — expect consolidation between ₹1,37,000 – ₹1,26,000.

Next breakout zone only above ₹1,73,000.

Gold too may cool off before the next move.

💼 **What's Next:**
Midcaps and smallcaps will shine once the index leaders take a breather.

The upcoming Union Budget could further fuel optimism — a possible STT or LTCG relief could be a game changer!

💡 **My Diwali Picks for the Year Ahead:**

👉 **Nifty 50, Apollo Hospitals, and Maruti Suzuki**

🎯 **My Target:**
By next Diwali, I expect Nifty to reach 27000–29,000 levels.

Let's celebrate prosperity with knowledge, patience, and smart investing!
